EDUCATION

- **Computational Science and Engineering** 2024 - 2027 (expected)
Master of Science, Technical University of Munich Munich, Germany
 - Focusing on High-Performance Computing and Artificial Intelligence in Medical Applications
 - Current grade: 1.6 (German scale; 1.0 best)
 - International Exchange (2026): **University of California, Berkeley, USA**
Machine Learning, Quantum Computing, Computer Vision (GPA: 3.47/4.0)
- **Engineering Science** 2020 - 2024
Bachelor of Science (Intensive degree), Technical University of Munich Munich, Germany
 - Broad engineering foundation with a specialization in Computer Science
 - Grade: 2.1 (German scale; 1.0 best), 210 ECTS
 - International Exchange (2023): **National University of Singapore, Singapore**
Data Structures & Algorithms, Discrete Structures, Probability (GPA: 4.17/5.0)

SKILLS

- **Programming Languages:** (Embedded) C/C++, Python, Java
- **Systems & Parallel Computing:** CUDA, MPI, OpenMP, CMake, Linux
- **Data Science & Machine Learning:** PyTorch, Lightning, NumPy, Hugging Face, Weights & Biases
- **DevOps & Version Control:** Git, Mercurial, GitHub Actions

EXPERIENCE

- **Tutor - Parallel Programming (IN2147)** April 2026 – present
TUM School of Computation, Information and Technology Munich, Germany
 - Assist students with course material, review homework submissions, and contribute to grading
 - Designed a framework-free MPI/CUDA assignment implementing a MNIST MLP ([article](#))
- **Infineon Technologies ** October 2024 - March 2025
Working Student, Automotive Software Engineer Neubiberg, Germany
 - Developed a new build system using CMake, unifying the build process for different compilers
 - Implemented compiler-specific requirements to meet security standards

SELECTED PROJECTS

- **Temporal Self-Supervision in Broadcast Sports Footage** 2026 - present
 - Self-supervised frame ordering of SoccerNetV2 clips
 - TimeSFormer-based architecture with attention rollout for decision attribution
- **Bachelor Thesis: Object Detection ** March 2024 - August 2024
 - Fine-tuned YOLOv9 and RT-DETR models on the LOCO warehouse logistics dataset
 - Achieved competitive accuracy relative to published results on the LOCO benchmark

AWARDS & ACTIVITIES

- **Scholarships and Awards:** Villigst Scholarship ([foundation](#)), Abitur distinction (top 7%)
- **Volunteer Experience:**
 - Berkeley International Study Program (BISP) — Student Ambassador
 - Member, Organizing Committee — Lecture Series
